- ▶ Healthy Metabolism†

RAW Enzymes™ Women 50 & Wiser

- ▶ Colon Health†
- ▶ Healthy Digestion†
- ▶ Gut-Related Immunity†
- ▶ Bone Health†
- ▶ Breast Health†
- ▶ Healthy Metabolism†

◆ Emerging science suggests vitamin D supports breast health†

RAW Enzymes™ Men

- ▶ Colon Health†
- ▶ Healthy Digestion†
- ▶ Gut-Related Immunity†
- ▶ Healthy Prostate†
- ▶ Heart Health†
- ▶ Healthy Metabolism†

RAW Enzymes™ Men 50 & Wiser

- ▶ Colon Health†
- ▶ Healthy Digestion†
- ▶ Gut-Related Immunity†
- ▶ Healthy Prostate†
- ▶ Heart Health†
- ▶ Healthy Metabolism†

HIGHEST POTENCY

When comparing enzyme formulas—especially ones with multiple enzymes—it can be pretty confusing. Enzymes are best measured by their activity levels, but there is no “one” measure of activity level that is used for all enzymes. Instead, different measurements are used for different enzymes.

While that may be confusing, with RAW Enzymes™, we’ve made it pretty easy. We looked at the leading multiple enzyme formulas, and we made sure that RAW Enzymes™ contains a higher activity level of every enzyme. Simply put, it is the highest potency enzyme formula available in health food stores.

ENZYMES AND DIET

Mother Nature can be pretty elegant, and a perfect example can be found where enzymes are concerned. Raw food, consumed as close to nature as possible, contains digestive enzymes.

Think about that for a second. If you eat food raw, as nature intended, the very food you are eating contains enzymes that make your diet easier to digest! That equates to a noticeable advantage for your body. The more enzymes you can feed it, the less it has to devote to digesting your food.

Alternately, cooked and processed foods are pretty much devoid of enzymes. Consuming them means that you are relying almost completely on your very own digestive enzymes to do all the work.

COMPLETE ENZYMES

At Garden of Life®, we strive to provide unique formulas that bring something new to the table. With RAW Enzymes™ you get:

- **High Potency**—Higher activity levels of every enzyme than all of the leading brands
- **RAW**—The only raw enzyme formula—uncooked, untreated and unadulterated with no binders or fillers
- **Overtime Enzymes**—the only enzyme formula that includes probiotics that work overtime to produce additional enzymes
- **Broad-Spectrum**—22 powerful vegetarian digestive enzymes with unsurpassed enzymatic activity to help your body digest the complete range of proteins, fats, carbohydrates and fiber

RAW ENZYMES™

RAW Enzymes™ from Garden of Life® was designed to provide your body with enzymes the way nature intended—uncooked, untreated and unadulterated, with no binders or fillers—in other words, RAW. Each formula is packed with 22 powerful digestive enzymes. Every formula includes a significant amount of protein-, carbohydrate- and fat-digesting enzymes. In fact, each individual enzyme included in every formula has a higher potency than any other multiple enzyme formula on the market.†

In addition to the highest potency of enzymes available in a multiple enzyme formula, RAW Enzymes™ goes even further with our Overtime Enzymes. RAW Enzymes™ includes probiotics specifically added for their ability to create more enzymes within the body. These “enzyme factories” continually generate additional enzymes round-the-clock as part of their natural metabolic life cycle. RAW Enzymes™ also includes probiotic-created vitamins, minerals and antioxidant enzymes including glutathione, catalase and SOD.
